

Prewit Motor Company Appointed As New Auto Dealership For Hamlin

Announcement was made in Hamlin this week of the formation of Prewit Motor Company, as successor of Irwin Motor Company, authorized Chrysler-Plymouth dealers.

Under terms of the transaction, Prewit has purchased the franchise of Irwin and has leased the premises on East Lake Drive for the operation of the automobile sales agency.

Gene Prewit, member of a Stamford family which has been long engaged in handling Chrysler products, will be in active charge of the local organization and Irwin will function as general sales manager. Under the new ownership an up-to-date service department has been installed and Claude Blevins and Andy Gardner are engaged in this department. Horace Lee Prewit will be in charge of the parts department.

Prewit informed The Herald that immediate receipt of new cars is scheduled and all models will be included in their stock.

Tentative plans call for an enlargement of the present quarters of the firm in which the building will be extended southward. After enlargement has been completed a large stock of tires will be made available to the public.

Prewit is now negotiating for sale of his home in Stamford and will move to Hamlin when satisfactory arrangements have been made.

Bryants Build For Implement House

Construction work has been started on a new building on Central Avenue to house the John Deere Implement department of Bryant-Link company.

The building is constructed as a private enterprise of Mr. and Mrs. John C. Bryant and is to be leased to the Bryant-Link company.

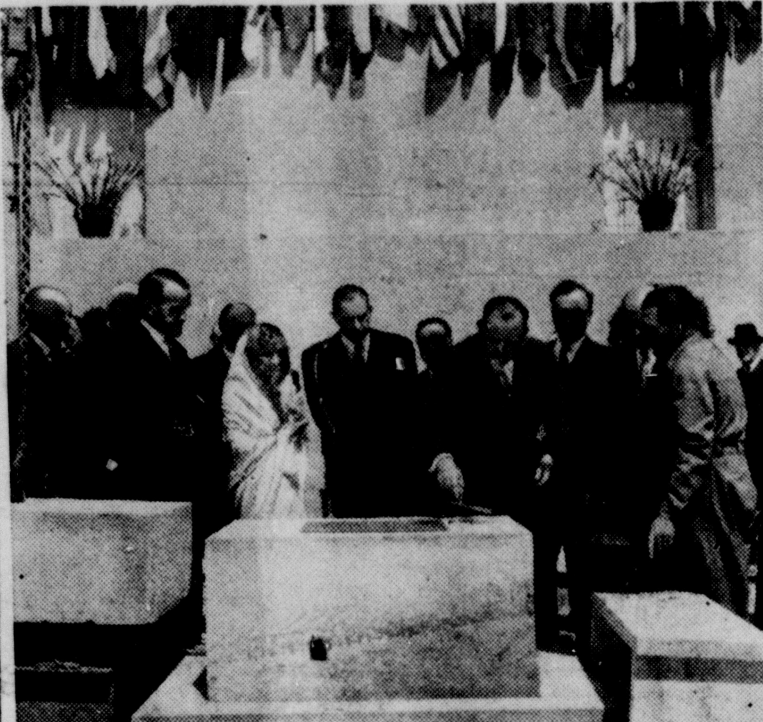

It is understood that the building is to be tile and brick construction with a modernistic glass front that will afford attractive display of implement lines.

Plans call for complete parts department and office facilities which will be modern in every respect.

T. E. Shelburne and Son are contractors for the construction. No completion date has yet been set for the building.

The building is being constructed on the property just south of the Ray Huling service station.

New Addition to Palace of Nations

Enroute to Moscow during his recent "peace mission" through Europe, U.N. Secretary-General Trygve Lie lays the cornerstone for a new wing of the Palais des Nations in Geneva, Switzerland. The new structure will accommodate the headquarters of the World Health Organization of the United Nations (WHO). With Mr. Lie are Max Petitpierre, President of Switzerland (left), Princess Rajkumari Amrit Kaur, Health Minister of India and President of the Third World Health Assembly, and other Swiss and WHO officials.

Stamford All-Stars Slated for Friday Appearance Here

An added attraction to the City Softball League this summer will be a double header between Hamlin and Stamford Friday (tonight) at 7:30 and 9:00.

First game will feature the Hamlin Junior Boys versus the Stamford Junior Boys. The Juniors are made up of boys from 17 years and below.

Second game will feature the Hamlin All-Stars versus the Stamford All-Stars. The team from Hamlin will be composed of men from the league of the city.

According to a report there will be no advance in admission prices and game will be played at the City Ball Park.

Sohio Oil Company to Complete Whaley Well in Swastika Sand After Test Run

Of prime interest in Hamlin this week was the completion of the Sohio Oil Company's J. G. Whaley well east of Hamlin.

The well was completed in the Swastika sand at a depth of 3150 feet and pipe was set in 10 feet of sand.

Gas came to the surface in four and one-half minutes and the well flowed in 36 minutes.

The rig used in drilling this well had just been purchased and is the most modern seen in this section. It is believed by oil men

here that the rig is capable of greater depth than the local demand and it will be used elsewhere.

The rotary has been removed and completion is to be made with a spudder.

Little doubt was expressed that the Whaley will make its full wildcat allowable when flow into the tanks begins.

Location of the Whaley property is approximately seven miles east of Hamlin on the Stamford highway.

Standings In City Soft Ball League Released

According to a report received Wednesday by The Herald here is the way the teams in the Softball League stacked up.

They show Hamlin's Veterans of Foreign Wars at top with four wins.

Team	W	L
V. F. W.	4	0
Conoco	1	1
Hitson	1	1
Lions	1	2
McCauley	1	2
Sylvester	0	1
Neinda	0	1

Insect Movie Comes For Local Showing

Announcement is made this week of the projection of a free technicolor movie to be staged in the Bryant-Link Implement building Monday night.

The technicolor film is a release of the Sherwin-Williams Co. and deals with insect control as a means of boosting cotton production.

The subject is treated with detailed information contained in the film which will consume an hour and forty minutes in display. After projection of the movie, a round table discussion will be held under the guidance of L. C. Bailey. Refreshments will be served.

Bailey informed Herald representatives that county agents and vocational agriculture men have been enthusiastic in their praise of the treatment of the subject in the sound film which will be displayed.

The program will begin at 8:00 p. m. promptly.

Grandson Leads To Joy for Brundages

Mayor B. M. Brundage was the bearer of glad tidings Monday when he received a telegram from Mrs. Brundage announcing the birth of a grandson in Richland, Washington.

The child was born to the former Maxine Brundage, now Mrs. Ralph Worley, and was named Larry Mac.

Mrs. Brundage has been in Richland for several weeks visiting prior to the birth of the grand child.

Mrs. Worley is progressing well following the Caesarian delivery.

Cleanup Campaign Produces Record Number of Trash Loads for City Trucks

Success of Hamlin's clean-up drive is indicated in the records revealed by city officials.

Acting in close cooperation with Jaycees in the conduct of this campaign, city equipment had handled in excess of 150 loads of accumulated trash at the conclusion of the campaign.

Particular satisfaction was expressed by Mayor Brundage over the disposal of this trash which might have provided a breeding place for all manner of vermin in the city. It was judged that an accumulation of many years was hauled during the drive.

The response of Hamlin citizens in cleaning their premises has led the city administration to extension of the drive beyond the original period and further cooperation is sought in completing the job.

Spokesmen for the city administration have issued a plea for cutting of weeds and undergrowth in downtown alleys as a further aid in the campaign. There are still a number of sites where the work has not been undertaken.

Approach of the polo season makes it imperative that the city be rid of all such undergrowth.

Culbertson Well Now Slated for Strawn

The Joe Culbertson oil well being drilled just south of the Ungren & Frazier Number Two producer failed to test as a producer in the Swastika sand from which the Number Three well is producing.

The well was tested at 3254 feet and showed 1350 pounds of shut in pressure and 250 pounds of flowing pressure with 1080 feet of free oil.

In a subsequent test after three more feet of penetration into the Swastika sand, the Culbertson well had gas to the surface in three minutes and the well flowed in forty minutes. This would indicate a producer from this formation, but operators were following intention of drilling to the Strawn.

Gas came to the surface in 19 minutes and tool was held open for three hours.

The well will be drilled to the potential Strawn sand and tested at that depth.

Saturday Opening Slated For Baptist Bible School

Bible School at the Hamlin First Baptist Church will begin by registering Saturday and continuing through Friday, June 16 according to a report made to The Herald early this week.

Hours for the school will be Monday through Friday, 8:30 to 11:30 a. m. each morning.

Bible mission studies, hand work, movies, stories, fun and refreshments will be features of the school.

Highlight of the school will be commencement exercises, Sunday night, June 18 in which each department will participate.

The faculty will number 43, and total enrollment expected is 300.

Departments and their superintendents are: Intermediate—Mrs. I. R. Huchingson; Junior—Mrs. M. T. York; Primary—Mrs. A. G. Irwin; Beginners—Mrs. J. L. Altum; Nursery—Mrs. Edgar Duncan; Babies under Three—Mrs. Flora Carter.

Entire program is under the direction of Mrs. D. D. Shelburne. Choir leader is Mrs. W. C. Russell, pianist, Jere Lynn Irwin; principal, Rev. A. R. Posey and general secretary, Willie D. Upshaw.

Schedule for June Soft Ball Play Listed

Rest of the schedule for the month of June is given below for the Softball League.

There are two games each night at 7:45 and 9:15 at the City Ball Park.

Games are every Monday, Tuesday and Thursday.

The schedule is as follows:

Monday, June 12—Neinda vs. McCauley and Hitson vs. Conoco.

Tuesday, June 13—Hamlin Girls vs. Plainview Girls and Sylvester vs. Lions Club.

Thursday, June 15—Hitson vs. V. F. W. and Sylvester vs. McCauley.

Monday, June 19—Lions vs. Conoco and Sylvester vs. Neinda.

Tuesday, June 20—Conoco vs. Neinda and Lions vs. V. F. W.

Thursday, June 22—Conoco vs. McCauley and Lions vs. Hitson.

Monday, June 26—Conoco vs. Neinda and McCauley vs. V. F. W.

Tuesday, June 27—Conoco vs. Sylvester. (single game).

Thursday, June 29—McCauley vs. Hitson and Neinda vs. V. F. W.

Lions Hear Pleasing Luncheon Program

John Petry, assistant pastor and educational director of the University Baptist Church in Abilene, came to the Lions Club luncheon Tuesday with a medley of baritone solos that displayed his talent to the utmost.

Petry was supplied through his connection with Hardin-Simmons and the manner in which he was received was indicative of the quality of his voice.

He was accompanied on the piano by Charlene Taylor of Hardin-Simmons and the young lady earned the plaudits of the group despite the fact that many of the compositions were maiden efforts on her part.

Jim Howard King presided in the absence of Jimmie Irwin.

Attendance for the meeting was far below average.

Cemetery Group In Summer Drive

The usual spring rains have caused the weeds and grass to over run the lots in both East and North Cemeteries. There has always been an annual cleanup in the summer through funds secured by personal solicitation. A change in this program has been instituted this year wherein a campaign will be conducted by letter suggesting an assessment for this purpose.

The committee in charge of the program points out that this is a civic duty and citizens of the town should view it as a privilege to contribute.

It was stated that over 100 lots are being kept on a monthly fee basis, which helps in the maintenance. At the same time, attention is called to the decided contrast between the fee maintained lots and those which are neglected.

Voluntary contributions to the fund will be accepted by the secretary at the F. & M. Bank.

Paint Creek Hearing Of Hamlin Interest

A number of discussions have been held with representatives of Stamford and Hamlin city councils relative to the Paint Creek water conservation movement.

No action has been taken by the Hamlin city council to align themselves in a water program with Stamford other than these discussions.

As a protective measure to city rights to Paint Creek waters, Joe Culbertson has been selected by the council to represent Hamlin at the hearing to be held Monday at Austin, wherein the Paint Creek proposal is up for disposition.

Friends - Relatives Attend Mayberry Funeral Here

One of town friends and relatives attending the funeral last week of Mrs. Monroe Maberry were the following.

Mr. and Mrs. Frank McCormack and family of Oklahoma City, Oklahoma and Mr. and Mrs. W. A. Stephens and family, Mrs. Mattie Wester and John R. Harughy of Lubbock, Mr. and Mrs. Ray Maberry and family of Meleshoe, Mr. and Mrs. Leonard Maberry and family of Plainview, Mr. and Mrs. Les Arterburn and son of Mineral Wells;

Mr. and Mrs. Dale Windsor of Fort Worth, Mr. and Mrs. J. C. Seaton and family, Mr. and Mrs. Ira Seaton and family, Grover Seaton of Brownfield, Mr. and Mrs. B. D. Seaton of Rotan, Mr. and Mrs. C. D. Holloway, Mr. and Mrs. Raymond of Abilene, Mr. and Mrs. Frank West, Mr. and Mrs. Johnnie White, Mr. and Mrs. J. A. Stephens of Anson, Mrs. Della Smith of Sweetwater, and Mr. and Mrs. Byron Maberry of Roby.

Mr. and Mrs. Arlie Leach, Atlanta, were Monday visitors in the home of Mr. and Mrs. J. C. Greenway.

Jess Young Well Shows No Color

Wheelock Drilling Company's Jess Young No. 1 on the outskirts of Hamlin to the Southeast, was drilling at 4303 feet Wednesday night and failed to show indication of pay in any formation so far encountered.

Hope was held that the well would develop as a producer in the Canyon Reef but it was apparent last night that this would not be forthcoming.

At midnight Wednesday the crew was coming out of the hole to install a new bit and a very hard lime formation was being encountered.

Formations cored in the drilling of the well so far have all had oil characteristics but there has been no saturation or color. Sand and shale in soft and dry form have been encountered up until the hard lime was struck.

The well is slated to be drilled to the Ellenburger.

Week of Softball Play Sets Leaders

Serenity of the Veterans of Foreign Wars as leaders in the city softball race was somewhat disturbed in the game of last Thursday night when they took on Neinda.

Doped as easy winners of this encounter, the VFW club was hard pressed to eke out a 4-3 victory over the Neinda club.

Woods pitched for VFW and Jones was on the hill for Neinda and each allowed four hits.

In the second go Hamlin Lions trounced McCauley by a score of 12 to 2. Bukler was on the mound for Lions and Steel and Fought served them up for McCauley.

Monday's schedule was rained out and will be set up for play at a later date.

Tuesday night found Lions contesting Hitson and VFW opposing Conoco.

Lions Club youngsters came to the park under the mistaken impression that a football game had been scheduled and kicked the game away effectively. Final score was Hitson 5, Lions 0.

Green pitched for Lions and Edwin Hill tossed for Hitson.

In the second game a wild exhibition was unveiled for the attendance before VFW emerged the winner over Conoco by a count of 15-11.

Usually reliable performers on both clubs were guilty of frequent miscues that made the game comical in many respects. Frequent bickering marred the contest from the spectators' viewpoint.

Hooper started for Conoco and was relieved by Lippe while Woods toiled the complete game for VFW. Woods sided his own cause by delivering with four hits in five trips to the plate while Hamilton led the Conoco club with three hits in five.

Methodists to Hold Vacation Bible School Monday

Vacation Bible School of the Hamlin First Methodist Church will begin at 8:30 a. m., Monday June 12, according to a report to The Herald this week.

Daily sessions will be from 8:30 to 11:30 a. m.

There will be classes for the following groups with their leader as follows:

Kindergarten group, Mrs. Alvin Hudson, Mrs. Don Gould, Mrs. W. T. Johnson, Mrs. M. L. Smith.

Primary group, Mrs. H. T. Wilson, Mrs. W. H. Eysen, Mrs. S. C. Ferguson Jr., Miss Jeannine Johnston.

Junior group, Mrs. A. B. Carlton, Mrs. Dean Witt, Rose Brady, Bennie Elkins.

Intermediate group, Mrs. Fred Ratliff, Mrs. John D. Ferguson, Mrs. Joe Stephens, Kay Bressire.

Suzanne Hudson will direct play activities.

Members of the Comrades Sunday School Class will serve refreshments.

Members of the W. S. C. S. and the King Daughter's Sunday School Class will keep the Nursery during the school period daily.

Children are asked to please register at the church between 1:00 and 2:00 p. m., Saturday, June 10.

Rotarians of T-B Wesley Nail Tells

Hamlin Rotary Club met at the Johnson's Drive-Inn Wednesday for its noon luncheon.

Visitors of the club were: K. K. Trice of Stamford; W. R. (Bill) Terry of Haskell; Edrick Hurd, Ed Stewart of Abilene; Jack Stewart of Los Angeles, California; Harry Horne and daughter, Alice of Sweetwater.

Wesley Nail, manager of the local hospital, had the program and gave an interesting talk and facts on tuberculosis.

Out of 4,406 x-ray pictures taken last year in Jones County, 41 showed T. B. with 32 possibilities and 41 discovered chest ailments.

He announced that the State Health Mobile Unit would this year be in Hamlin for possibly three days and urged those from 15 years up to have a chest x-ray made.

He closed by saying "Tuberculosis is the most deadly communicable disease in the state and we can control it in three years with the cooperation of everyone", according to a report from the State Health Department.

Hamlin Group Attend Abilene MYF Meeting

John Edgar Rowland, Rose Brady, Susanne Hudson and Bennie Elkins of the local First Methodist Church are attending the Methodist Youth Fellowship Assembly at McMurry College, Abilene, this week.

Over 300 young people from all sections of the Northwest Texas Conference had registered in advance for the Assembly.

The above young people will have charge of the evening service at the First Methodist Church, Sunday, June 11, and will report the work of the Assembly in celebration of Methodist Student Day which will be observed throughout the Methodist Church as announced by the minister, Dr. Will C. House.

Bond Drive Reaches Eighteen Per Cent Of Jones County Quota

According to a report received by The Herald this week Jones County had attained a 18.85 per cent of its \$77,500.00 quota on the Independence Drive Sales of Series B Savings Bonds.

The report came from the Treasury Department, Dallas.

Total for the county raised was \$14,608.25.

Mr. and Mrs. Ben Townley and daughter, Diane, were in Hamlin all of last week between semesters of T. C. U. Townley is attending the Fort Worth school.

Water Supply Plentiful for Summer Following Rains of Recent Weeks

Hamlin's new lake has benefited from the recent rainfall despite the setback to harvesting of wheat crops over the county.

A gauge was taken of the city lake Monday while the creeks were still running slowly and at that time the water level was 60 inches below the spillway.

This assures the city of an ample water supply to last through the summer and it is believed that a full lake is possible before

rainy season ends for the county.

Contributing factor in the condition of the lake is the fact that all tanks are now full in the watershed and terraces are well saturated.

An additional foot was added to the height of the spillway in May and this will materially add to the capacity of the lake if the water becomes available in the creeks.

Leaders in U.N.'s Fight for Women

Aiming at the improvement of the situation of women all over the world, the United Nations Commission on the Status of Women has made a series of recommendations ranging from measures to eliminate sex discrimination in the political field to the adoption of the principle of equal pay for equal work for men and women workers. Here, planning a day's work are three leading members of the Commission: Mme. Marie-Helene Leflauchaux of France, Mrs. Isabel McKorickindale of Australia and Isabel de Urdaneta of Venezuela.

Calvary Baptists Will Hold Singing Sunday

Regular Second Sunday Singing will be held at the local Calvary Baptist Church, this Sunday, according to a report received by The Herald.

There will be several out of town quartets at the singing.

The public is cordially invited to attend.

Wallabys are baby kangaroos.

Game Commission Helps In Arranging Shooting Dates for Conservation Aid

Helping arrange shooting dates so that migratory waterfowl hunters in the sprawling state of Texas may get a fair break this fall has been undertaken by the Game, Fish & Oyster Commission, according to a report to The Herald.

In the matter of when to shoot ducks and geese, what time of day to begin and quit and the daily bag and possession limit total, the Commission functions merely in an advisory capacity. This is because the final decision is made by the United States Fish and Wildlife Service.

The Commission, through action at its recent meeting at Pampa, already has asked the Federal authorities to cut Texas into two zones to that the season in the Panhandle and extreme West Texas might run concurrent with the surrounding areas of Oklahoma and New Mexico, thus providing for an earlier shooting. Later open season dates are preferable in the more southerly sections of Texas since the waterfowl reach those areas later.

For the main part of the state, the Commission has suggested that the split season plan of last fall be replaced by a straight shooting period beginning November 10. In 1949, Texas duck and goose gunners hunted from November 4 to November 21 and then from December 21 to January 7.

Bag limits also would be changed to provide for eight birds a day or the same number in possession. Game Department field men have observed some tendency by hunters to kill more than the bag limit when the daily limit is only four birds leaving the less they fall. Thus, waste would be eliminated through a higher daily limit since the proposed possession limit would be unchanged. Similar problems involve the suggested zoning plan to accommodate the Panhandle sportsmen. Texas,

although as large as two or three ordinary states, has never been zoned for waterfowl hunting.

Perhaps one reason is that, with the season in the northern extremity of the state opened two or three weeks earlier than that in the state as a whole, hunters from the southern area would move in to share in the earlier season, and the hunters in the northern areas would legally travel southward to enjoy a prolonged gunning period within their own state. The Commission may recommend and suggest but the final decision is up to the Federal authorities.

All kind INK at The Herald.

Flashing Beacons Subject Of Highway Department Discussion To Teach All

Do you know the meaning of a flashing red or flashing yellow beacon and the purpose for which they are used? If you do not know, you are not in a class by yourself. There are many motorists in this "don't know class" who should graduate to a higher knowledge of flashing beacons. By so doing, they could help to insure their own safety, as well as the safety of others. They could perhaps save themselves the sad experience of some day having to explain a traffic violation to the judge.

The flashing red beacon means STOP and then proceed when it is safe to do so in the same manner as you would after stopping for a STOP sign. If you run through a flashing red beacon without coming to a full stop, you are just as guilty of a traffic violation as you would be if you ran the red light of a stop and go signal.

The flashing red beacon is generally used instead of or in conjunction with a STOP sign where it is especially desirable to emphasize the need for stopping, and for important intersections where the traffic conditions will not justify the installation of a stop and go signal.

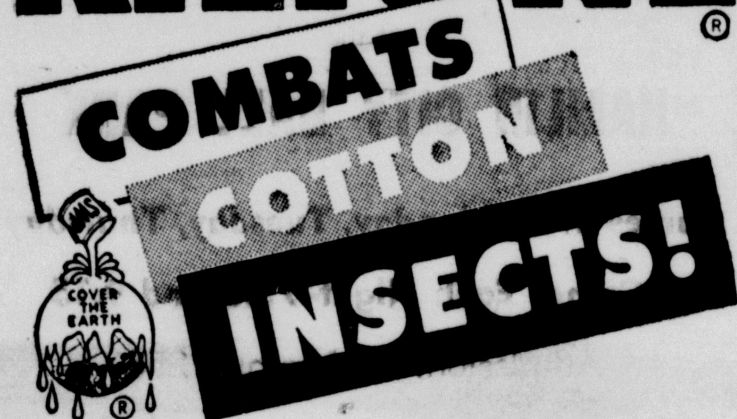

The flashing yellow beacon means CAUTION. Drivers of vehicles may proceed through the intersection or past such signal only with CAUTION. Flashing

STANDARD FLASHING BEACON

yellow beacons are more frequently used to mark a physical obstruction existing in the roadway, an important intersection hidden by an obstruction or sharp curve in the highway, or a sudden change from rural conditions,

KILTONE

With Sherwin-Williams Kiltone and the new YELLOW DEVIL low volume sprayer it is possible to make insecticide applications when needed.

Kiltone is a specially formulated liquid spray concentrate containing Toxaphene and DDT. The YELLOW DEVIL low volume sprayer was developed especially for Kiltone application. One fifty-five gallon load of spray mixture treats up to 25 acres of cotton.

See the new YELLOW DEVIL SPRAYER! Find out more about the Kiltone spray program from

Mrs. J. J. Polk of Rotan visited Mr. and Mrs. H. C. Carr Saturday.

Mrs. Roy Kilpatrick of Abilene visited Mr. and Mrs. J. W. Riddle Sunday.

Mrs. C. I. Deel, Mrs. Woodrow Crawford and daughter were visitors of Lloyd Warnell Wednesday.

Mr. and Mrs. Tom Campbell visited Mrs. Lou Ervin and Mr. and Mrs. Pete Burfield of Noodle last week.

Mr. and Mrs. John W. Gibbons visited Coleman Gibbons over the week-end at Snyder.

Mr. and Mrs. George Campbell, Mina Mae, Mr. and Mrs. Clark visited Mrs. Raymond Smith at Wichita Falls Sunday.

Mr. and Mrs. Karl Hughes, Don and Jimmie of Seminole spent

where relatively high speeds are safe, to those of an urban district where speed must be reduced.

Flashing beacons have an important part in the scheme of traffic control, and a better understanding by motorists of the purpose for which these signals are erected would increase their effectiveness many times. At the lighter traffic intersections which will not justify the more rigid control of a stop and go signal, the flashing beacon marks the existence of an intersection of more than average importance by either emphasizing the need for stopping with flashing red or proceeding with caution with the flashing yellow.

When the beacon shows flashing red, be ready to stop; when it shows flashing yellow, be alert and ready for any emergency that might confront you.

the week-end with Mr. and Mrs. L. A. Eaton.

Help yourself to Happiness

... enjoy the hobby of woodworking with popular-priced, Delta-made **Homcraft® Power Tools**

Here you have the makings of fun, healthful relaxation, pleasure for the whole family. Homcraft Power Tools take the work out of woodworking. You can make many things — useful, attractive things — quickly and easily. Homcraft tools are designed specifically for the average home shop, where they are given intermittent use.

They are built by the makers of famous Delta® Power Tools, leaders in accuracy, safety, and dependability. Delta tools are widely used in industry, in schools, in home shops. In fact, a Delta-equipped shop is usually the goal of the hobbyist who wants the last word in heavy-duty quality.

In order to meet the needs of hobbyists who do not require heavier tools, Delta has created the Homcraft line. Here is your opportunity to start or expand your shop at modest cost — with tools that give real value for your money.

Hamlin Chapter No. 460 of the Order of Eastern Star installed officers at the Masonic Hall, last Wednesday, May 31.

Installing officer was Mrs. A. Hudson.

Installing Marshall was Mrs. Ed Polnac, Deputy Grand Matron, District 2, Section 7, Grand Chapter of Texas, Order of Eastern Star of Stamford.

Secretary installed was Mrs. Ira Clements, organist, Mrs. Dick Maberry, chaplain, Mrs. W. J. Poe.

Other officers installed were: Mrs. Paul Galey, Worthy Matron; Kelly Scott, Worthy Patron; Mrs. Roy McCurdy, Associate Matron; P. D. Harkins, Associate Patron; Mrs. Fred Smith, Treasurer; Mrs. Paul Goodgame, Conduress; Mrs. Jack Vaughan, Associate Conduress.

Star points were: Mrs. Joe League, Adah; Mrs. J. H. Foster, Ruth; Mrs. Kelly Scott, Esther; Mrs. W. R. Terry, Martha; Mrs. F. C. Briscoe, Electa.

Mrs. O. G. Harvey was installed as Warden and Paul Goodgame as Sentinel.

Refreshments were served to all who attended after the social.

Business Failures For April In State Total Record Seventeen

Business failures in Texas numbered 17 in April, 18 in March, and 17 in April 1949, according to reports to The Herald this week from the University of Texas Bureau of Business Research.

Fatalities for the first four months in 1950 totaled 77 as compared with 57 in the same period in 1949 and 23 during the first four months in 1948.

Liabilities per failure averaged \$24,000 in April, \$52,000 in March and \$21,000 in April 1949.

A cubic foot of gold weighs about 1,200 pounds.

FRENZIED FINANCING

My newspaper has been carrying the story of the Texas banker who embezzled nearly \$300,000 over a long period of years. He got caught only when the total of his thefts became so large as to be unmanageable in his slick covering-up manipulations. It's the old story of a man borrowing to live on a scale his income cannot afford, being unable to make repayment, and then resorting to outright embezzlement to continue his costly living and cover up thefts which must get ever bigger.

Inevitably your embezzler gets caught. In the beginning this Texas banker was really only practicing deficit financing. On the day I read about his sorry plight, there was another newspaper story about deficit financing. It related how Treasury Secretary John Snyder is in something of a quandary on how to borrow the money needed to manage the ever-growing, deficit-financed program of the Federal Government.

Must Pay The Piper.

Our Government's present financing practice has some striking similarities to that of the defunct Texas banker; and unless the practice is stopped there will be tragic consequences involving the interests of every American. Here's a paragraph from the newspaper dispatch: "Most citizens don't know this, but Mr. Snyder already has borrowed over \$3,200,000,000 since the beginning of the current fiscal year last June 30, to permit the Federal Government to live beyond its income. Mr. Snyder has done this in a quiet way."

Individuals and business concerns have extended most of the new loans to the Government. They bought \$3,000,000,000 worth of short term (three-year) Treasury notes. The notes were made attractive to investors because they were of short term, good interest rate and often free from Federal taxation. But as the Federal debt climbs on beyond a quarter trillion dollars, and Federal deficit spending is continued, the Treasury may be forced to freize financing.

Facts Must Be Faced.

Nothing could more certainly bring national chaos than the continuous fiscal policy of deficit

What's he looking for?

COULD BE big game... or he might be one of the millions who are looking for financial independence.

If he is, he's looking in the wrong place. He won't find it in the jungle or in the desert, on a mountain top or under the sea, but right in his own home town—right around the corner at his local bank.

And that's where you can find it too! Right here at this bank... the form of U. S. Savings Bonds.

To be financially independent, you must save regularly—and what could be a better, safer way to save than buying U. S. Savings Bonds every month? For every \$3 you invest today, you get \$4 back at the end of ten years.

Your search is over—come in and purchase your U. S. Savings Bonds regularly at this bank. Why not do it today?

FOR YOUR FINANCIAL INDEPENDENCE—BUY U. S. SAVINGS BONDS

COTTON AT THE MILL

This cotton mill worker, known as a slubber frame tender, is busy at one of the many jobs involved in the complicated process of turning cotton fiber into yarn. He is removing yarn from the slubber frame. The yarn will be placed on spinning frames to reduce its size even further. Ultimately this yarn will be used in the weaving of fabrics.

financing. We ought either to urge increased taxes of \$5,000,000,000 or demand a cut of at least \$5,000,000,000 in the annual budget. Continued deficit financing, a constant expansion of Federal spending programs, and public apathy, could duplicate in America the terrible happenings in France during the 1790's.

Jaques Necker was French Minister of Finance in 1785. The Government has heavily in debt and was spending money lavishly. There was created a synthetic prosperity. Then France suffered two crop failures, other unexpected events occurred and a slight depression set in. As taxes began to dwindle, Necker began heavy borrowings.

When ordinary interest rates didn't attract the needed money, Necker became frantic. He there upon devised a system of annuities paying from eight to 10 per cent—sensational returns!

Necker's Belated Wisdom.

History shows that the French people fell hard for Necker's attractive scheme. Fathers of families even borrowed five per cent money from banks and loaned it to the Government at 10 per cent. The masses invested savings. Money poured in. Necker demonstrated a mandate from the people. The Government's spending programs were expanded. France had a delirious prosperity. Then one day out of a clear sky, the King removed Necker. The Treasury couldn't pay off its obligations that day.

France was bankrupt. Terror and rage swept the people. The Government tried desperately to get new loans. When it failed, it printed vast amounts of currency and inflation quickly stagnated commerce. The great drama of the French Revolution had begun. The words of Necker, written before he died in 1805, should be carved above the doorway of every big spender in politics today: "The most dangerous as

well as the most unjust of expedients." said the defunct Finance Minister of a defunct France, "is that of raising loans without having secured the payment of interest on them. . . Such an admission as this, which is tempting because it puts off the evil day, only increases the harm and brings the precipice nearer."

When the heart speaks, however simple the words, its language is always acceptable to those who have hearts.—Mary Baker Eddy.

Home Freezers Lead Demonstration Meet

Home freezers are fast becoming a part of the food preservation equipment in rural homes. This method of food preservation is enabling the homemaker to do a better job of providing the family with fresh vegetables the year around according to Loreta Allen, Jones County Home Demonstration Agent.

A good supply of vegetables is needed for balancing the diet, and home freezing or using a freezer locker box to store surplus vegetables for later use is one sure way to have them when they are needed.

Several factors will have a bearing on the quality of the frozen vegetables and these should be kept in mind when vegetables are being prepared for freezing. Speed is important and there should be no delays from the time the vegetables are gathered until processed and stored.

She points out that vegetables begin to lose food value and flavor as soon as they are gathered. During the summer months, she says it is best to gather the vegetables early in the morning, but be sure they have reached their peak in flavor and texture for freezing does not improve their quality.

It is necessary to scald vegetables in boiling water, before freezing, to prevent loss of quality and to preserve the vitamin content. Freezing alone does not stop the enzyme action in vegetables and if they are not scalded, this action will cause undesirable odors to develop along with the loss of flavor and color.

Each vegetable requires a different scalding time. When vegetables are properly scalding, packaged, processed and stored at about 0 degrees F., they will retain their quality for one year. The vegetables that cannot be successfully frozen are: tomatoes, and salad greens, such as lettuce, parsley, endive, cabbage, celery and onions.

Bulletin No. B-175, "Frozen Foods" is now available at the agent's office. This bulletin is new and instructions are given in detail on how each vegetable should be handled from the time it leaves the garden until it is ready for storage.

Meattime MARVELS

APPLE CRUMB PIE

Homemakers can't go wrong in including apple pie on their menus, for it is the all-American dessert. The mellow flavor of the apple is brought out to its fullest in this irresistible apple crumb pie.

Apple Crumb Pie
Shell:
1-1/2 cups crumbs, finely rolled graham crackers or plain bread crumbs
1/2 cup sugar
1/2 teaspoon powdered ginger
3/4 cup fortified margarine, melted

Mix crumbs, sugar, and ginger. Add melted margarine in thin stream; mix well. Turn into 9 or 10-inch pie plate and press firmly into shape. Chill. Prepare filling.

Filling:
4-6 tart apples
1 cup sugar
2 cups water
2 tablespoons fortified margarine
1/2 cup tart jelly

Pare, quarter, core and cut apples into eighths. Bring sugar and water to boiling. Add margarine. Cook apples a few pieces at a time, setting aside until all are cooked. Fill pastry shell. Reduce any apple syrup that is left to a very thick syrup. Add jelly (off the heat); mix and pour over the top of apples. Bake in moderate oven (350° F.) about 15 minutes until fruit is glazed and pie shell is set. For other tempting, nutritious, food ideas, send today for your free copy of "Meattime Marvels with Margarine," a helpful, 32-page, recipe booklet in two colors. Low Cost "House of the Month"

The answer to maximum convenience and livability at rock-bottom cost. Every door and window in this small cottage is located to provide the greatest economy of space so that furniture can be easily arranged without crowding "traffic lanes" through the house. Approximate building-price range: \$3500-\$4000, depending on local conditions.

Demonstration Agent Talks on Lighting

Here are some hints on home lighting that you may want to consider in connection with the redecorating of the home, according to a news release from Miss Loreta Allen, Jones County Home Demonstration Agent.

Shifts to deep shades now in vogue for wallpaper, interior paint, curtains and other furnishings may require more lamps or higher-wattage bulbs for adequate illumination.

Continuing, she said, the darker colors absorb light, and the lighter colors reflect it.

Good lighting must satisfy four major requirements—these must be plenty of light for adequate

seeing... more light for the tedious tasks... there should be no glare and this calls for correctly designed lamps and fixtures... the light must be properly distributed and that means placing lamps and fixtures where they'll do the most good and lastly the light must be properly directed—this means directing the light so there is an absence of shadows on the visual tasks being performed.

Use lamps with a diffusing bowl within the shade to improve the quality and the light and the shade linings should be light in color.

Elegance of language may not be in the power of all of us; but simplicity and straightforwardness are.—Alford.

Vota Vita Sunday School Class Holds Installation Breakfast

Vota Vita Sunday School Class of the Young People's Department of the Hamlin First Baptist Church met in the home of the class teacher, Mrs. Ira Clements, for an installation breakfast, Sunday.

Class colors of white and gold were carried out in the decoration theme. A white and gold heart was placed in the center of the tables and gold daisies were placed on the hearts.

New class officers were installed by the teacher, who presented the officers with gold and white flowers.

Officers installed were: Patsy Parker, president; Olea Kite, first vice-president; Patsy Brown, second vice-president; Olea Meeks, third vice-president; Dorothy Altum, secretary; and Donna Miller, reporter.

Other members of the class are: Joy Maynard, Doris Rodgers, Ynell Decker, Maxine Smith, Billie Katherine Newland, Floy Lee Havens, Gwendolyn Norris and Betty Joyce Ray.

RAINBOW STRIPES

A vest of rainbow colors is designed by Stephanie Koret in cotton corduroy to match trim corduroy slacks for the college girl's play hours. Corduroy is the collegian's favorite fabric this season for both sportswear and dress wear, the National Cotton Council reports.

Let The Herald Do That Job Printing

FAMILY TREAT. They'll all have fun in this roomy 4-door Sedan with generous luggage space for trips. Shown here is the SPECIAL. Same body type available also in the SUPER series.

Look at the FUN you're missing!

SURE, we know—a car is a "necessity" these days. A modern family "couldn't get along without one." Or so you tell yourself.

Come, come, sir! We know, and so do you, the real reason you got the new-car fever—and the kind of car you are hankering for.

You want a car with some fun in it, don't you?

A car you'll get a big bang out of every time you see it parked in front of your house—every time you slip into its front seat—every sweet and easy mile you travel in it.

Well, come see what this beauty does for you.

How the doors swing open in warm welcome at a thumb touch on a button. How the broad seats invite you to take it easy. How the big straight-eight under the

bonnet snaps into purring life at your toe-touch.

And then note—

How smoothly you slip away from the curb—especially when Dynaflo* is handling the power transmission.

How firm and steady the whole car feels. How it holds on curves, free of "heel-over" and sway. How each coil-sprung wheel quicksteps over bumps and rough spots that mean jounce and jiggle on most cars—how buoyantly road-free a Buick is.

*Dynaflo Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs — vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Fun? You bet it's fun—too much fun to miss.

And there's no reason to miss it; really, for this strapping traveler is priced under many sixes. Starts at figures just an easy step above the so-called Lowest Price cars.

What's keeping you from trying one, when the nearest Buick dealer is ready to demonstrate without obligation any time you want to call on him.

Only Buick has Dynaflo and with it goes!

- HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.)
- NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steady torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

"Better buy Buick"

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

Quartet Of Styles For A Twinkle-Toed Summer

Here are eight steps to a stylish "understanding" that will keep you well-shod around the clock all spring and summer-long. Left to right, from the fashion pages of Cosmopolitan magazine, are: high-heeled patent sandals, Dior-designed and I. Miller-made for \$24.95; speeded-up, white pumps by Phyllis Star for \$12.95; Fortunet's red leather beach sandals that are easy on feet, eyes and purse at \$6.65; and a pair of shantung pumps, made in several colors by Paradise to sell for less than \$12.

Fifty Per Cent of People Have Some Form of Ring Worm Infection In Texas

It is a 50-50 bet that you have some sort of ringworm infection. Check to see. Chances are it will be in your scalp hair, on your groin, or on your feet—either on the soles or between the toes. If you don't find it, you're lucky, because while it isn't serious, its itching and persistence is very annoying.

A fungus—the same one same one that causes food to mold—causes ringworm. It's one of the world's most common ailments, with authorities estimating that half of the world's population is affected. It is more common this time of year than any other.

Animals get it too. As a matter of fact, cats, dogs, rabbits, mice and fowls are frequently the source of infection in man. A child plays with an infected dog, the dog's hair brushes the child, and the child stands an excellent chance of ringworm infection.

The scales which are formed can cause new infections on the body, so an infected person has to be careful to keep it from spreading. Advanced cases exude a clear, runny fluid—it "weeps", as doctors say, and the fluid can cause breaking out on whatever part of the body it touches. Children are especially vulnerable to scalp ringworm. Epidemics are

usually started in schools or institutions.

Swimming pools, locker rooms, and gyms are potent sources of infection. Everyone has heard of "athlete's foot." It is nothing more than a type of ringworm. So is the so-called "barber's itch."

Preventive measures call for avoiding persons and animals known to be infected. Swimming pools, gyms, locker rooms, and the like can do their part toward ringworm control by boiling towels, swimming suits and their other public facilities for 30 minutes. Foot baths are also worthwhile.

The best thing to do is to keep clean at all times. But if you happen to get ringworm, or if you have it now, it will be better for all concerned if you report to your family doctor immediately. He'll recommend medication designed to shorten the course and lessen the severity of the infection.

AN ODDS & ENDS SALE at The Book Shop today, Saturday and Monday. Come early! (14) 1c

The natural flight of the human mind are not from pleasure to pleasure, but from hope to hope.—Samuel Johnson.

Hamlin Memorial Hospital News

Patients admitted to the Hamlin Memorial Hospital since last week's report in The Herald were: L. B. Petty Sr., medical, May 30; Frances Flores, medical, May 30; Mrs. R. D. Cotton Insect Infestation Expected To Be Heavy Over State Says County Agent

Cotton insects infestation reports from the Valley and Central Texas point to a heavy infestation all over the state this year. Even though a lot of cotton still remains to be planted in Jones County, producers are urged to be prepared by having their dusters or sprayers in good condition, according to a report from Bill Lehmberg, Jones County Agent.

Checks for insects should be made from the time cotton has two leaves until it blooms.

For early (presquare) control of thrips, aphids, and fleahoppers three-fourths pound of technical toxaphene in 2-1 mixture (2 parts

toxaphene and 1 part DDT) to 2 or 3 gallons of water per acre will give good control as a spray. As a dust, 20 per cent toxaphene—40 per cent sulphur or 3-5-40 mixture at seven to 10 pounds per acre will give good control. Both spray and dust should be repeated at seven day intervals if the infestation builds back up. If boll weevils are present the spray mixture will have to be stepped up from three-fourths pound to one and one-half pounds technical toxaphene or 2-1 mixture per acre.

Normal time of application for early control is at usual chopp-

Retail Sales of State Takes Dip Of 5% In March

Texas retail sales dropped five per cent from March to an estimated \$417,000,000 in April according to a report received this week from the University of Texas Bureau of Business Research. April sales of Texas retailers were three per cent above a year ago, however.

Durable goods store sales fell 11 per cent from March to more than offset the two per cent gain for nondurable goods stores. In comparison with the same month of last year, durable goods store sales picked up 13 per cent as contrasted to a four per cent decline for nondurable goods stores.

Hardware stores turned in a three per cent rise from March in their April sales, while other durable goods stores turned in declines. Sales of jewelry stores were down five per cent; furniture, seven per cent; lumber and building materials, 10 per cent; and motor vehicle dealers, 15 per cent.

Most types of durable goods stores surpassed their year-earlier sales records in April. Lumber and building material dealers tallied a 19 per cent increase; household appliance stores, 16 per cent; motor vehicle dealers, 14 per cent; and hardware stores, eight per cent.

Jewelry stores and farm implement dealers registered sales decreases of 11 and 18 per cent, respectively, from April 1949, for the only declines among durable goods stores.

In the nondurable goods line, apparel, country general, and the general merchandise stores benefited from last minute Easter buying, their sales increases over the preceding month ranging from one per cent for general merchandise to 22 per cent for men's and boys' clothing stores.

An early Easter this year kept apparel store sales seven per cent below those of last April. Family clothing store sales dipped two per cent; men's and boys' clothing stores, three per cent; and women's specialty and shoe stores, 11 per cent.

Sales of food stores were off two per cent; general merchandise stores, five per cent; department stores seven per cent; and florists, 10 per cent.

Mrs. R. B. Spencer has been taken to Dallas for medical diagnosis. She was accompanied by R. B. Spencer when they left last Thursday.

Mr. and Mrs. H. F. Perkins and Tommy have been vacationing in Oklahoma, Missouri, Illinois and Indiana.

AN ODDS & ENDS SALE at The Book Shop today, Saturday and Monday. Come early! (14) 1c

ing time.

The individual field or farm may receive considerable benefit but, community or county-wide action is needed because the larger the area, the more effective will be the control.

"The 1950 Guide For Controlling Cotton Insects" is available at the county agent's office in Anson. "If you do not have time to come by and get a copy, drop a card to the agent's office and a copy will be sent you.

COTTON SERVES THE FIGHTING MAN

Cotton accompanied Uncle Sam's fighting men wherever they went in World War II. From the steaming jungles of the Pacific to icy Arctic shores, cotton was used by the armed forces in 11,000 articles necessary for war. Today cotton is indispensable in peacetime defense programs. Shown here are two soldiers currently training in cold weather tactics in Alaska. They are wearing cotton cold-weather uniforms and firing a mortar shell charged with powder made of cotton lint and cellulose.

GETS PAINT JOB.

Hamlin's Santa Fe Depot was receiving a new paint job Thursday with cream and red roof.

Ben Jonson, English poet laureate, is buried in an upright position in Westminster Abbey.

Pocahontas married John Rolfe.

"S.O.S." has no literal meaning, but was chosen as a distress signal because of its ease in transmitting.

The seven seas are the North Atlantic, South Atlantic, North Pacific, South Pacific, Arctic, Antarctic and Indian Oceans.

Ocean waves have been known to go as high as 80 feet.

The greatest truths are the simplest; and so are the greatest men.—J. C. and A. W. Hare.

The art of art, the glory of expression and the sunshine of the light of letters, is simplicity.—Walt Whitman.
